505 Marine Life Management

Efforts to protect, propagate, and maintain an abundant supply of marine life through wise management and the enforcement of protective regulations.

50501 Marine Life Information Services

Efforts to gather, interpret, and provide statistical data on the harvesting and utilization of marine life species and educational materials on marine life and its management and regulation.

50502 Marine Life Propagation and Management

Efforts to maintain and increase population stocks of marine life forms contiguous to the state's water to prevent over-exploitation, to maintain stocks in natural proportion, and to provide natural and artificial habitats, including leasing and repletion of bottomlands.

50503 Marine Life Regulation Enforcement

Efforts to enforce regulations upon fishermen necessary for sound economic/sociologic and biologic management of marine life forms contiguous to the state's waters.

50504 Marine Science, Resources, and Environmental Research

Efforts to study marine life diseases and ecological problems; to find solutions and discover hybrid and exotic marine life types which may thrive in the state's waters; to find new and better ways to preserve the marine population; to conduct research on marine life forms contiguous to the state's waters; and to conduct marine research generally.

50505 Marine Resources Surveying and Mapping

Efforts to provide information and plats on the location of oyster planting grounds and public grounds.

50506 Artificial Reef Construction

Efforts to construct and maintain artificial reefs for improved sport fishing.

50507 Chesapeake Bay Fisheries Management

Efforts to prepare management plans for oysters and marine fish.

50508 Oyster Propagation and Habitat Improvement

Efforts to increase oyster production on public shellfishing grounds.

Function: 5 Resource And Economic Development

50509 Chesapeake Bay Management Research

Efforts to provide for biological, physical, and chemical studies of factors affecting shellfish and critical finfish populations.

50599 Other Services

Efforts not specifically described in the preceding subprogram (s) but which relate directly to the program described. (This subprogram may be used only with the prior written approval of the Department of Planning and Budget.)

506 Minerals Management

Efforts to support mineral management and development techniques for sound economic use consistent with proper environmental and safety management.

50601 Geologic Research and Mapping

Efforts to provide information and maps on the types and locations of mineral deposits, as well as the nature and character of geology.

50602 Minerals Mining

Efforts to support mining practices which provide environmental management and individual safety in minerals extraction.

50603 Gas and Oil Extraction Management

Efforts to support drilling practices which provide environmental management and individual safety in the extraction of gas and oil.

50699 Other Services

Efforts not specifically described in the preceding subprogram (s) but which relate directly to the program described. (This subprogram may be used only with the prior written approval of the Department of Planning and Budget.)

507 Resource Management Research, Planning, and Coordination

Efforts to promote resource management through research, planning, and coordination.

50701 Policy and Program Development

Efforts to evaluate programs and establish policy in the area of resource and economic development. [Eff. 7-1-04]

50702 Environmental Research and Coordination

Efforts to research, coordinate, and evaluate major proposed projects which impact on the state's environment.

50703 Energy Conservation Advisory Services

Efforts to coordinate energy related information, plans, activities, and research among and between the public and private sector.

50704 Chesapeake Bay Management Reporting

Efforts to collect and synthesize management information related to the Chesapeake Bay initiatives.

50799 Other Services
